

Burton et al. (2018) Inter-comparison and assessment of gridded climate products
over tropical forests during the 2015-16 El Niño

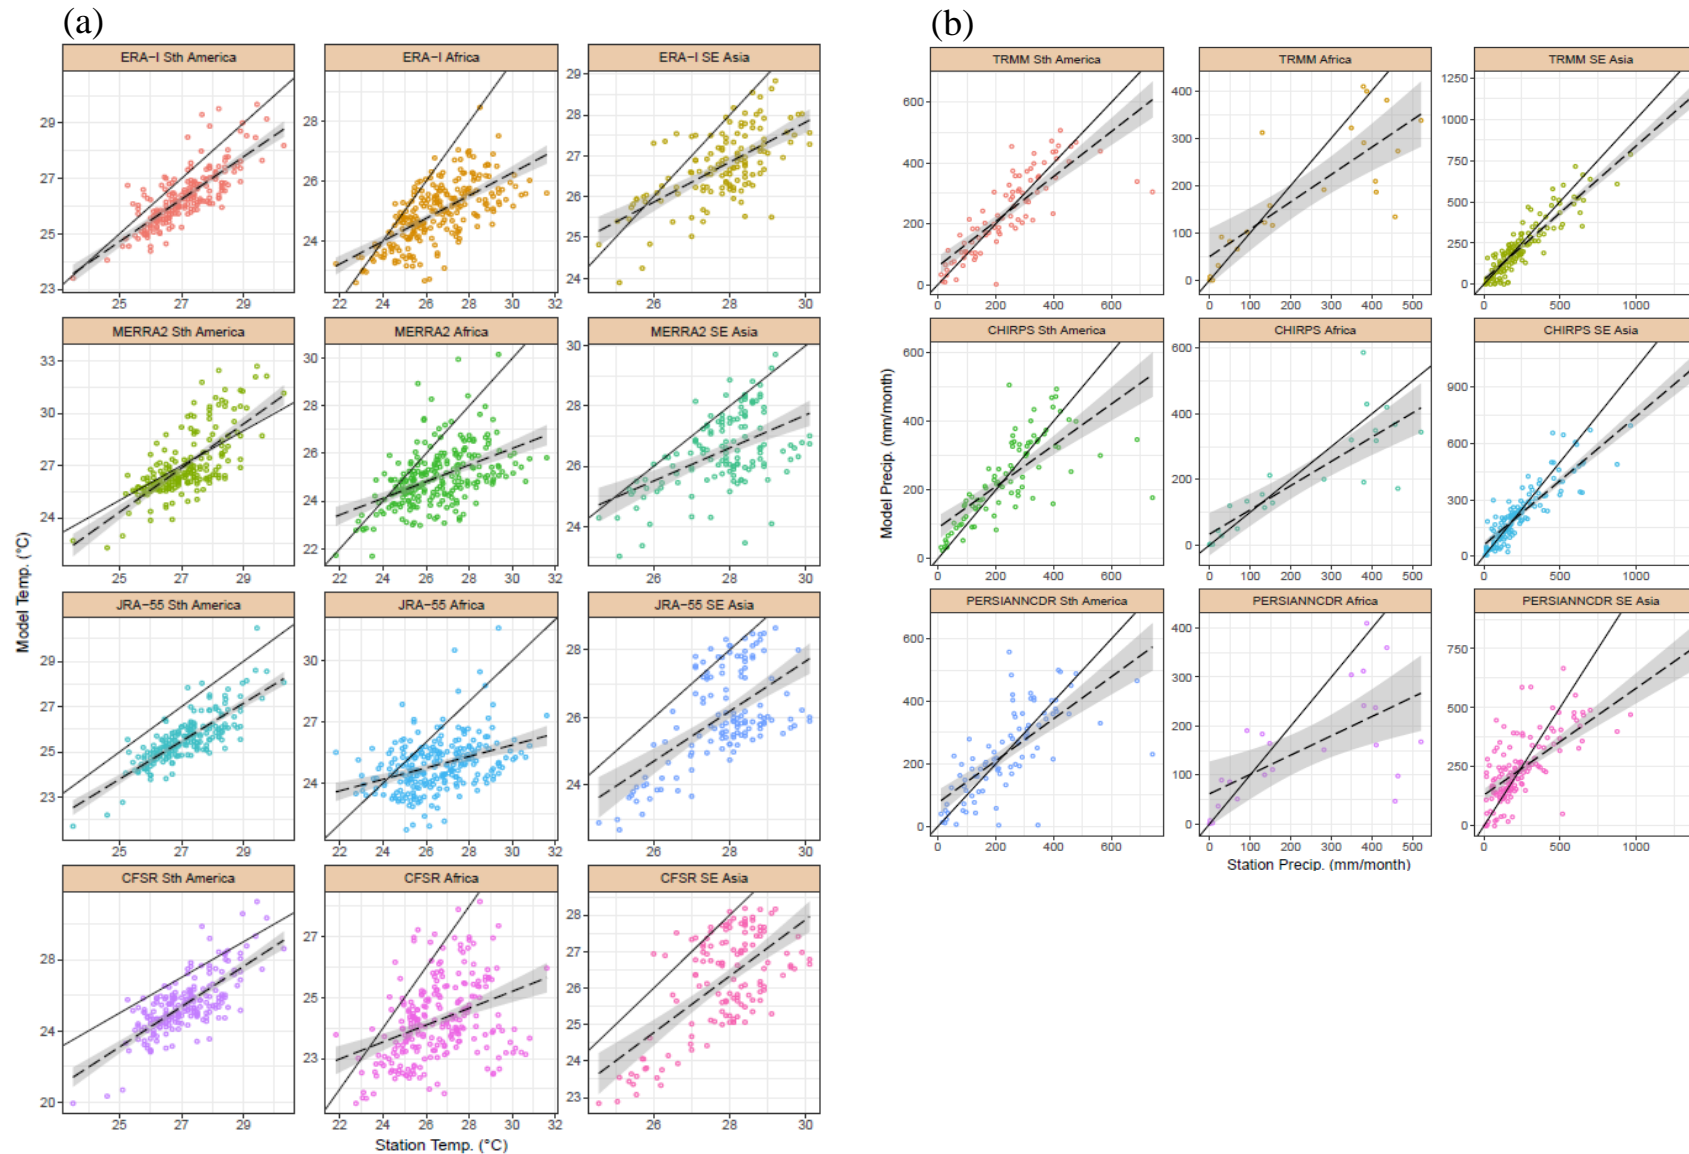

Figure S2. a) Scatterplots of reanalysis and observed temperatures filtered to the 2015-16 El Niño period. b) Scatterplots of observed and remotely sensed rainfall filtered to the 2015-16 El Niño period. Dashed lines show the linear trend between the observed and modelled values, with the grey shaded area displaying the 95% confidence interval. Black solid line shows the 1:1 line.
